October 15, 2020

To Members of the Emery Board of Education, and Citizens of Emery County:

We are pleased to present Emery County School District's Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2020. This report is published to provide citizens, entities, and other interested parties with both financial and non-financial information. This report is also intended to support the District's mission of providing a comprehensive education that will prepare students to take a proactive and responsible role in an ever-changing world.

Utah law requires that Emery County School District (the District) publish within five months of the close of each fiscal year a complete set of financial statements. These statements are to be presented in conformity with generally accepted accounting principles (GAAP) in the United States of America and are audited by a licensed firm of certified public accountants in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller of the United States.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in connection with it. The District's MD&A can be found immediately following the Independent Auditor's report in the *Financial Section* of this document.

## INTERNAL CONTROLS

Management assumes full responsibility for the completeness and reliability of all information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a framework of internal controls to protect the District's assets from loss, theft, or misuse and to compile sufficiently reliable information for the preparation of the District's financial statements in conformity with GAAP.

The cost of internal controls should not outweigh their benefits, and consequently, the District's internal controls are designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

## INDEPENDENT AUDIT

Gilbert and Stewart PC, a firm of licensed certified public accountants, has audited the District's financial statements. The goal of the independent audit is to provide reasonable assurance that the financial statements of the District for the year ended June 30, 2020, are free of material misstatement.

The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, evaluating the accounting principles used and significant estimates made by management, and assessing the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified (“clean”) opinion that the District’s financial statements for the year ended June 30, 2020, are fairly presented in conformity with GAAP. The independent auditor’s report can be found as the first component of the *Financial Section* of this report.

The independent audit of the financial statements of the District was part of a broader, federally mandated “Single Audit” designed to meet the special needs of Federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government’s internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of Federal awards. *Government Auditing Standards*, issued by the Comptroller General of the United States and the provisions of *Title 2 of the U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*, are the authoritative standards governing Single Audit engagements. These reports are available in the compliance section of this report.

## DISTRICT PROFILE

The Emery County School District was officially organized in 1915. The District is one of 41 public school districts in Utah. Student enrollment for the 2019-20 school year was 2,141. The purpose of the District is to provide public education for those who reside within the boundaries of Emery County, located in central-eastern Utah. To accomplish this purpose, as of June 2020, the District services one 9-12 high school, one 7-12 high school, two 6-8 middle schools, one K-6 elementary school and five K-5 elementary schools.

In addition, the District offers several educational alternatives outside the traditional school setting. These alternatives include preschool training at four elementary schools, special education programs, an adult education program, a comprehensive career and technical education program and concurrent enrollment classes where students simultaneously earn high school and college credits. Other offerings include advanced placement, STEM, robotics, music, and many other programs in a variety of curriculum areas.

Utah has many charter schools. However, there is no charter school within the geographic boundaries of the District. The closest charter school is Pinnacle Canyon Academy (PCA) in Price, Utah. Approximately 15-20 students from Emery County choose to attend PCA each year. State funding for these students is generated through the District’s charter school levy and then transferred to PCA.

Emery County School District is a legally separate entity enjoying all rights and privileges accorded political subdivisions in the State of Utah. The District is fiscally independent. Policy making and legislative authority are vested in the Board of Education, which in accordance with Utah Code 20A-14-202-1a, is comprised of five members. The Board of Education represents the Emery County citizenry and is elected from precincts which have been independently determined by Emery County. A map of the precinct boundaries is included in the *Introductory Section* of the report, on page 12. The Board of Education is elected locally on a non-partisan basis. Board members serve staggered four-year terms.

The Board of Education is responsible, among other things, for developing policy, adopting the annual budget, levying property taxes, incurring bonded debt, and appointing both the Superintendent and Business Administrator. The Superintendent and Business Administrator are responsible for carrying out the policies of the Board of Education and overseeing the day-to-day operations of the District.

The District has over 300 employees working in a variety of professions, including approximately:

▪ 140 Teachers / Counselors / Specialists	▪ 80 Educational Assistants
▪ 20 Custodians	▪ 20 Child Nutrition Workers
▪ 20 Bus Drivers	▪ 15 Secretaries
▪ 11 School Administrators	▪ 6 Maintenance Workers
▪ 5 District Administrators	▪ 4 Technology Specialists
▪ 3 Departmental Supervisors	▪ 2 Accounting Specialists

### *ECONOMIC INDICATORS*

*State Economy:* The Utah Governor’s Office of Management and Budget has recently reported the following information: Due to the state’s prompt and decisive action responding to the COVID-19 pandemic, multiple signals indicate that Utah is now solidly in the economic recovery phase. Utah is the second lowest unemployment rate in the country at 4.1%. Utah is second only to Idaho in August 2020 year-over job loss relative to last year’s total employment base with fewer job losses. While some industries experienced major decreases while other industries experienced major increases, solid sales tax growth returned by July to 9.3% growth.

The United States Census Bureau estimates Utah’s 2019 population at 3,205,958. This represents a 1.41% increase from 2018. The 2010 census data showed Utah’s population at 2,763,885, an increase of 23.8% from the 2000 census. Utah’s population is projected to reach 3.3 million in 2020, 3.9 million in 2030, 4.5 million in 2040, 5 million in 2050, and 5.5 million in 2060.

Personal income in Utah reached \$160.0 billion in the first quarter of 2020, a 4.3% increase from the prior year. Per capita personal income is expected to continue increasing through 2020.

On October 1, 2019, there were an estimated 666,858 students in Utah’s public education system; an increase of 7,906 students, or 1.2%, over October 1, 2018. It is noteworthy that in many years, additional students have been integrated into the Utah public school system with little to no real growth funding. These students are becoming increasingly diverse, and score respectably with their national peers.

*Local Economy:* Because of unique local factors, the economy in Emery County does not always parallel that of the State of Utah. Employment in Emery County revolves heavily around the energy and agricultural industries. Employment in farming, mining and energy production is a key component of the local economy.

Emery County had an estimated population of 10,012 at July, 2019, reflecting a stable population in the recent years. The 2010 census population was 10,971. Otherwise, population in the county has remained relatively flat over the years, with the population in the 2000 census being 10,860, a difference of only 116 from the 2010 census. Prior to 2001, historical numbers readily demonstrate an ebb and flow of population in the County, based on the availability of mining and energy employment. Population reached an all-time high of 12,700 in 1982 and 1983. Net migration is typically in the negative.

Emery County generally has a higher rate of unemployment than the State of Utah average. However, with the pandemic, the state of Utah in August of 2020 actually has a slightly higher rate of 4.1% where the County saw an unemployment rate of 3.9%.

### *STUDENT ENROLLMENT*

Emery County School District experienced consistent and significant declining enrollment between 1993 and 2009. Enrollment in 1993 reached a high of nearly 3,400 students and by 2009, the enrollment was 2,256. Since 2009, enrollment has remained relatively level, but has shown a slight trend downward due mainly to employment reductions in the mining and power generation industries. Based on birth rate numbers and the current sizes of classes in the District, it is anticipated that over the next several years, enrollment numbers will remain level or experience a small decrease. Projected enrollment for the next four years does not show a significant increase or decrease from the current enrollment of 2,141.

## REVENUES

The District is dependent upon State aid which provides 44% of government-wide revenues and 49.0% of the general fund revenues. As a percentage of total revenue, State aid has remained consistent over the last few years. To illustrate this, as recently as 2010, State aid provided 41% of government-wide revenues and 48.6% of general fund revenues. Overall, government-wide State aid to the District increased from 2019 to 2020 by \$959,996.

The State's fiscal year 2020 school finance program is designed to provide every Utah school district with a basic operation program of \$3,311 per weighted pupil unit (WPU). This amount increased from \$3,395 in 2019, \$3,311 in 2018, \$3,184 in 2017, \$3,092 in 2016, and \$2,972 in 2015. The Utah State Uniform School Fund was constitutionally established in 1938 and is used to allocate funding for statewide public education programs. Since 1947, all Utah taxes based on income have been required to be used for public education. In 1996, voters in Utah approved a change providing that these revenues could also be used for higher education. Additionally, a statewide property tax rate is levied to finance the Uniform School Fund and is applied against the taxable value of real and personal property.

Locally generated property taxes comprised 43.1% of government-wide revenues and 44.9% of general fund revenues. Local taxable property values increased again for the second straight year—6.51% higher than the previous tax year.

Federal funding accounted for 7.11% of government-wide revenues and 3.94% of general fund revenues, representing an increase from the prior year largely due from federal assistance in the School Foods Services Fund.

## BUDGETARY CONTROL

The District adopts an annual budget for revenues and expenditures. This budget serves as the financial operating plan for the entire fiscal year. Revisions may be implemented during the year. Said revisions are approved by the Board only after receiving citizen input through a public hearing. All annual appropriations lapse at fiscal year-end with the exception of those indicated as a fund balance reserve. The level of legal budgetary control is at the overall fund level.

Each June, the District Superintendent submits to the Board a proposed operating budget for the next fiscal year, commencing July 1<sup>st</sup>. This budget includes proposed expenditures and the means of financing them. Also included is a final budget for the current fiscal year ending June 30<sup>th</sup>.

On or before June 22<sup>nd</sup> of each year, the Board of Education legally adopts, by resolution, its budget for the next fiscal year, after receiving taxpayer input. If the District will exceed the certified tax rate, a budget is adopted in August through the truth-in-taxation process.

In developing its budget, the District strives to estimate revenues and expenditures as accurately as possible. The level by which expenditures may not exceed appropriations has been interpreted by the State Superintendent of Public Instruction to be the total budgeted revenue of a given fund.

## MAJOR INITIATIVES / CAPITAL PROJECTS

Buildings owned by the District are generally older, with most school buildings having been constructed between 1962 and 1981. Renovations and upgrades occur annually as needed, and the District strives to maintain its buildings at a high level. Consequently, although the buildings are older, they are generally in excellent condition. A capital budget approval process is used for major projects. District administration reviews annual requests for capital projects, and approves those which are most urgent. Procurements above \$50,000 are also approved by the Board of Education as required by State law and District policy. Major projects completed in the last year include:

- Fire alarm monitoring systems at Bookcliff Elementary and Green River High schools
- Security door systems at Bookcliff, Green River, Emery High, San Rafael, and Cleveland schools.
- Flooring upgrades at Cleveland Elementary
- Lighting upgrades at Cleveland Elementary and Canyon View Middle School.
- HVAC system upgrade at Cleveland Elementary
- Secondary water filtering system at San Rafael Middle School

The last major building construction project was the completion of a new gymnasium at Green River High School in June of 2007. The District has contracted with an architect and CM/GC for the replacements of Emery High school and Ferron Elementary along with classroom additions at Bookcliff Elementary. These projects are planned on condition of the general obligation bond being passed in November 2020.

### *LONG TERM FINANCIAL PLANNING & CONCERNS*

The District does not expect revenues to increase significantly in the near future and subsequently continue to be conservative in all budgeting processes and inasmuch as possible, to not use one-time funding sources for ongoing expenditures.

The District has formed a building committee, made up of representatives from schools throughout the District as well as a community expert in architecture and engineering. The committee may be expanded as needed to include public representatives from communities served by the District. It will be the responsibility of this committee to review current buildings, future student projections, and to make recommendations to the Board of Education regarding future building needs and possible renovations to existing buildings along with possible bonding requirements.

The District has experienced significant financial impacts over the last decade due to statewide equalization funding formulas, property tax rule modifications, and in-district declining enrollment. In Utah, equalization in funding has been based off of the amount of property valuation per student. Due to the high centrally assessed properties in Emery County, the Emery School District is considered a wealthy District in equalization formulas and consequently does not benefit from equalization funding. The District continues to promote the idea that equalization should be defined more by opportunity and access to education, particularly in rural areas. This is an ongoing concern to the District.

### *SIGNIFICANT FINANCIAL POLICIES*

The District maintains the following financial goals: a) to provide the best student education possible with the resources available, b) to maintain at least one month of operating expense in all fund balances, c) to identify revenue sources for all new supplemental programs prior to implementation, and d) to adequately fund and maintain basic programs. Significant updates were recently made to several District financial policies, including the policies related to Receipts, Disbursements, Fundraising, Donations, Purchasing Ethics and the District Audit Committee.

### *AWARDS & ACKNOWLEDGEMENTS*

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Emery County School District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2019. To be awarded a Certificate of Achievement, an entity must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. *This was the twelfth year that the District has achieved this prestigious award.* We believe that our current report continues to meet the Certificate of Achievement program's requirements and we are submitting it to GFOA.

The District also received the Association of School Business Officials International's (ASBO) Certificate of Excellence in Financial Reporting for the year ended June 30, 2019. This award certifies that the report substantially conforms to the principles and standards of financial reporting as recommended and adopted by ASBO. The award is granted only after an intensive review of financial reports by an expert panel of certified public accountants and practicing school business officials and is also valid for a period of one year. *This was the twelfth year the District has received this prestigious award.* We believe that this current report continues to meet the Certificate of Excellence program's requirements and we are submitting it to ASBO.

We wish to acknowledge principals, secretaries, and many other employees of the departments and schools in the District who play a critical role in the management, accurate processing, and timely closing of the District's financial records. Their expertise and professionalism are greatly appreciated.

We would also like to express appreciation to all individuals who assisted in the preparation of this report. We would also like to thank the members of the Board of Education for their interest and support in conducting the financial affairs of the District in a responsible and progressive manner.

Respectfully submitted,

---

J. Jared Black, Superintendent of Schools

INDEPENDENT AUDITOR'S REPORT

To the Board of Education  
 Emery County School District  
 Huntington, Utah

**Report on the Basic Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Emery County School District, (the District) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Emery County School District, as of June 30, 2020 and the respective changes in financial position thereof and the budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, and the required supplementary information regarding pensions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Supplementary and Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of awards is presented for purposes of additional analysis as required by *Title 2 U.S. Code of Federal Regulations (CFR) Part 100, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied to the audit of the basic financial statements and, accordingly we do not express an opinion or provide any assurance on them.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated October 15, 2020, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

***Gilbert & Stewart***

GILBERT & STEWART, CPA, PC

Provo, Utah

October 15, 2020

As management of the Emery County School District (District), we offer readers of the District's financial statements this narrative overview of District financial activities for the fiscal year ended June 30, 2020.

### FINANCIAL HIGHLIGHTS

**The financial position of the District improved!** The following highlights are a summary of the District's financial position in several areas that help measure the District's financial performance for the fiscal year ended June 30, 2020.

- **Government-Wide Assets:** The District's total net assets exceeded liabilities by \$18.10 million at the close of the fiscal year. This is an increase in total net position of 6.1% from the previous year. Deferred Inflows increased by 24.9% while deferred outflows decreased by 60.6%. This pertains to property taxes levied for future years and pension resources.
- **Government-Wide Financial Progress:** During the year, government-wide expenses reported were \$1,043,047 less than the \$30.08 million generated in taxes and other revenues for governmental activities.
- **Governmental Fund Financial Progress:** With an increase in funding, the combined fund balance increased by \$1,603,856, or 14.3%. This amount represents fund balance increasing in the General Fund by \$1,364,941, decreasing in the Capital Projects Fund by \$122,404, increasing in School Food Services Fund by \$232,674, and an increase of \$128,645 in the Student Activities Fund. For comparison, the combined fund balance in the prior year increased by \$1,353,513.

### OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) Government-wide Financial Statements, 2) Fund Financial Statements, and 3) Notes to the Basic Financial Statements. This report also contains required and other supplementary information in addition to the basic financial statements themselves.

#### A. Government-Wide Financial Statements (found on pages 27-28 of this report)

- The *Government-wide Financial Statements* are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business.
- The *Statement of Net Position* presents information on all of the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.
- The *Statement of Activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the Statement of Activities for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned, unused sick leave).

**B. Fund Financial Statements.**

A *fund* is a group of related accounts that are used to maintain control over resources segregated for specific objectives. The District uses fund accounting to ensure compliance with finance-related legal requirements. All funds of the District can be divided into two categories: governmental funds and fiduciary funds.

- *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the Government-wide Financial Statements. However, unlike the Government-wide Financial Statements, Governmental Fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on balances of spendable resource available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of Governmental Funds is narrower than that of the Government-wide Financial Statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the Government-wide Financial Statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains five governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the *General Fund* and the *Capital Projects Fund*; both are considered to be Major funds. Data from the other three governmental funds are combined into a single, aggregated presentation. Individual data for each of these governmental funds is found in the *Combining and Individual Fund Statements and Schedules* elsewhere in this report.

The District adopts an annual appropriated budget for its *General Fund*. A budgetary comparison statement has been provided for the *General Fund* to demonstrate compliance with this budget. The basic governmental fund financial statements can be found on pages 29-33 of this report.

**C. Notes to the Basic Financial Statements.**

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The Notes to the Basic Financial Statements can be found on pages 35-56 of this report.

**D. Supplementary Information.**

Required Supplementary Information (RSI) includes schedules related to GASB 68, Accounting and Financial Reporting for Pensions. These schedules, along with the Notes to RSI, can be found immediately following the Notes to the Basic Financial Statements, on pages 57-61. The combining and individual fund financial statements and schedules referred to earlier in connection with Non-major governmental funds are presented following the Required Supplementary Information, on pages 62-73. Additional financial and non-financial statistical data and trends are presented in the statistical section of the report.

## GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The following section will provide additional information on the status of the District's net position, as well as changes in net position from the prior year.

### A. Net Position – Governmental Activities

For the fiscal year ended June 30, 2020, District assets exceeded liabilities and deferred inflows and outflows of resources by \$18.10 million.

	Governmental Activities		
	2020	2019	Difference
Current and other assets	\$ 29,100,056	\$ 26,942,287	\$ 2,157,769
Capital assets	15,392,463	15,533,311	(140,848)
Total assets	<u>44,492,519</u>	<u>42,475,598</u>	<u>2,016,921</u>
Pension deferred outflows	1,989,351	5,052,801	(3,063,450)
Total deferred outflows	<u>1,989,351</u>	<u>5,052,801</u>	<u>(3,063,450)</u>
Long-term liabilities outstanding	8,755,494	13,784,241	(5,028,747)
Other liabilities	3,640,515	3,884,991	(244,476)
Total liabilities	<u>12,396,009</u>	<u>17,669,232</u>	<u>(5,273,223)</u>
Property taxes - unavailable	12,666,936	12,214,551	452,385
Pension deferred Inflows	3,319,779	591,517	2,728,262
Total deferred Inflows	<u>15,986,715</u>	<u>12,806,068</u>	<u>452,385</u>
Net position:			
Net investment in capital assets	15,392,463	15,533,311	(140,848)
Restricted	4,146,680	3,994,537	152,143
Unrestricted	(1,442,997)	(2,474,749)	1,031,752
Total net position	<u>\$ 18,096,146</u>	<u>\$ 17,053,099</u>	<u>\$ 1,043,047</u>

**EMERY COUNTY SCHOOL DISTRICT'S Net Position  
June 30, 2020 and 2019**

Notable information related to net position includes the following:

- The largest portion of the District's net position reflects investment in capital assets (e.g., land, water stock, buildings and improvements, and furniture and equipment) less any related debt (general obligation bonds payable and obligations under capital leases less unspent bond proceeds) used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.
- With reporting the Pension Assets and Liabilities, the net position increased \$1,043,047, showing the *Unrestricted* portion with a negative \$1,442,997. For comparison, the previous year *Unrestricted* portion was negative \$2,474,749 showing a gain for this year of \$1,031,752.
- An additional portion of the District's net position represents resources that are subject to external restrictions on how they may be used.

At the end of the current fiscal year, the District shows fluctuation in all areas of the Net Position. The decrease in *Net Investment in Capital Assets* reflects the depreciation for all assets. The increase in Cash and Investments coordinates with the increase in the Government Fund Balances as shown in the Basic Financial Statements. The decrease in the negative balance of the Unrestricted Net Position includes the favorable Net pension liability and Deferred inflows related to pension.

**B. Changes in Net Position – Governmental Activities**

- The District's total net position increased during the 2020 fiscal year by \$1,043,047. The following discussion and analysis focuses on this increase – see chart on the following page:

**Changes in Net Position  
June 30, 2020 and 2019**

	Governmental activities		Increase (Decrease) from Fiscal 2019
	2020	2019	
<b>Revenues:</b>			
Program revenues:

<b>Expense per pupil</b>	<u>\$ 13,562</u>	<u>\$ 12,931</u>	<u>\$ 630</u>
<b>Student population</b>	2,141	2,181	(40)

**REVENUES**

- Total revenues increased by 5.0% or \$1,431,395, with current year revenues at \$30.08 million compared to prior year revenues at \$28.65 million. The leading cause of the growth is largely attributed to Operating Grants and Contributions - which include Special Education, Career and Technical Education, Transportation, and LandTrust state funds, Property Taxes, and Federal and State Aid not Restricted to Specific Purposes. Charges for services slightly increased from Fees collected by students. The remaining increase results from funds moved from the Agency fund from FY19 to the Student Activities Fund in FY20.

## Management's Discussion and Analysis

- Combined Federal and State aid equaled 51.17% of the District's revenues while property taxes generated 43.11% of total District revenues. The remainder of revenues came from other locally generated sources.
- Federal and State aid Not Restricted shows an increase of \$91,070. State aid is based primarily on weighted pupil units (WPU) and other programmatic appropriations. If a student is in school membership for the full 180 days of the academic year, the State awards the District one WPU. The State guarantees that if local taxes do not provide money equal to the guarantee it will make up the difference with State funding. The value of the WPU increased from \$3,395 in FY19 to \$3,532 in FY20. However, the District had a slight decline in student enrollment offsetting the increased funding, but still showing an increase of \$136,707.
- Revenue from local sources increased by \$34,901. Property taxes increased by \$300,647. Interest Income decreased by \$128,511. The district received a one-time refund from our health insurance company of \$136,000 which was disbursed in one-time stipends, yet a decrease of \$96,000 from FY19.

### EXPENSES

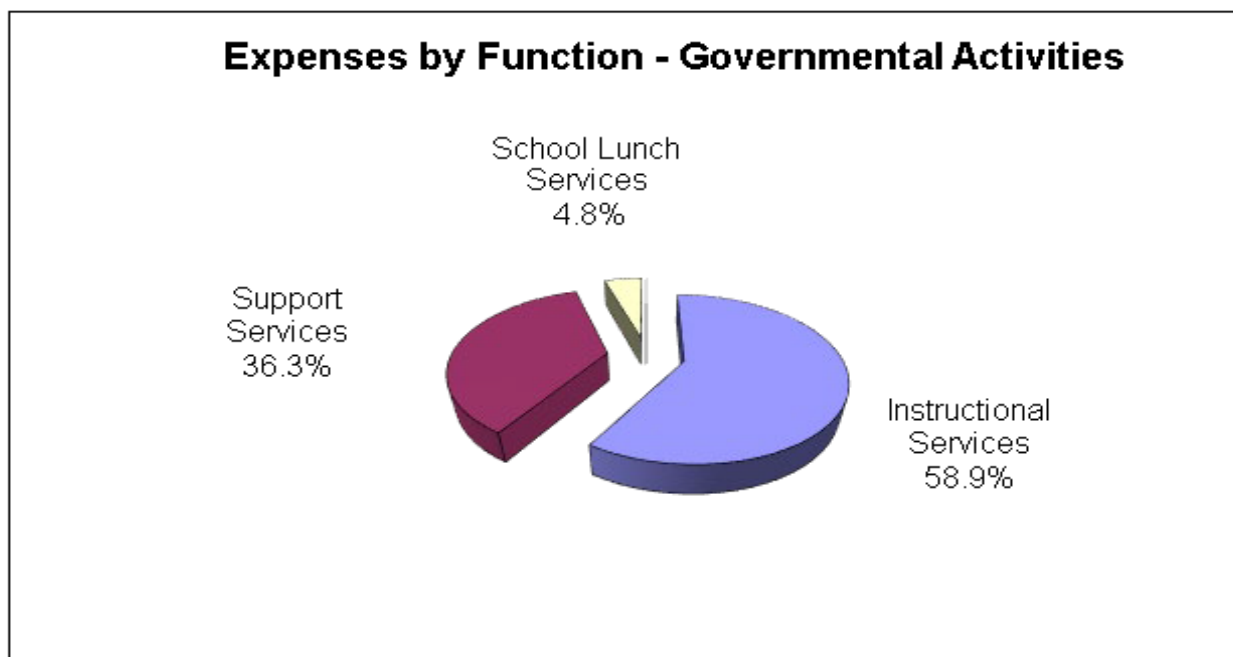

- Overall expenses increased by \$832,478 or 2.95%, with School Food Services carrying the majority of the increase of 44%. With the COVID 19 pandemic, all students were allowed to be classified as free and reduced with breakfast and lunches delivered to their homes for months March through May.
- Salary schedule amounts were increased by 3% and qualifying employees received step increases as well. Additional indexed steps were added to all salary schedules for years beyond step 8. Retirement rates remained firm at 23.69% of earned wages for the majority of the District's employees who are on the Tier 1 retirement system.
- The District's health insurance plan remained a high-deductible plan, accompanied by a health savings account (HSA) for each eligible employee. The District also contributes to the HSA. The District

## Management's Discussion and Analysis

participates in a health insurance pool with eight other comparable districts or public organizations. Pool rates increased by 10.45% with minimal changes to prior year plans. For FY20, the District pays \$32,000 for family-level coverage annually with premiums and HSA contributions.

- Staffing at the Instructional level remained consistent with replacements of retiring or terminating employees.
- Depreciation expenses of \$1,297,753 were allocated to the appropriate functions according to percent of total expenses, with the largest being Instructional Services.

## FINANCIAL ANALYSIS OF THE DISTRICT'S GOVERNMENTAL FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds:** The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. Governmental funds report the differences between their assets and liabilities as fund balance, which is divided into non-spendable, restricted, and unrestricted portions. *Non-spendable* includes inventories and prepaid expenditures that are not expected to be converted to cash. *Restricted* includes net fund resources of the District that are subject to external constraints due to State or Federal laws, or externally imposed conditions by grantors or creditors. Restrictions include tax revenues levied for specific purposes, such as debt service or capital projects.

The unrestricted fund balance is, in turn, subdivided between committed, assigned, and unassigned portions. *Committed* balances reflect the District's self-imposed limitation on the use of otherwise available expendable financial resources in governmental funds. *Assigned* balances in the General Fund and other governmental funds are those that do not meet the requirements of restricted or committed, but are intended to be used for specific purposes. *Unassigned* balances in the General Fund are all other

## Management's Discussion and Analysis

available net fund resources. The District has designated portions of the unassigned fund balance to earmark resources for certain government-wide liabilities and post-employment obligations that are not recognized in the governmental funds.

At June 30, 2019, the District's combined governmental fund balance is \$12,846,601 (\$198,674 in non-spendable, \$3,974,864 in restricted, \$367,317 in construction commitments, \$1,000,000 in Economic Stabilization, \$834,084 in assigned and \$6,471,662 in unassigned fund balances). This amount represents an increase of \$1,603,856 from the previous year. The primary factors of this increase mirror those highlighted in the analysis of governmental activities. In addition, the following changes should be noted:

### A. General Fund

- The *General Fund* is the chief operating fund of the District. At the end of this fiscal year, the unassigned fund balance was \$6,471,662 (an increase of \$1,382,215) while the total fund balance was \$7,748,951. The total fund balance increased by \$1,364,941, or 21.4%.
- Expenditures for general District purposes totaled \$25.20 million, an increase of \$645,105 or 2.6% over the prior fiscal year. Increases were due to personnel salaries slightly rising, with benefits increasing (medical with a 10.45% rate increase). Two Mental Health professionals were also additionally hired as part of state funding for this purpose. 67.5% of this increase was in the Instructional Services function.
- As allowed by Utah law, the District has established an undistributed reserve within the General Fund; this amount is set aside for contingencies or possible reductions in state funding and is not to be used in the negotiation or settlement of contract salaries. As of June 30, 2020, \$1,000,000 or 12.9% of the total fund balance is committed for this purpose.
- *General Fund* salaries totaled \$14.44 million. The cost of associated employee benefits including retirement, social security, and insurance (health, dental, accident, industrial, and unemployment) was \$7.64 million. Combined, salaries and benefits in the general fund accounted for \$22.08 million, or 87.65% of total *General Fund* expenditures.

### B. Other Major Funds

- At year-end, the *Capital Projects Fund* has a total fund balance of \$3,816,043, representing a small decrease of \$122,404 from FY19. This fund is used for the acquisition of capital assets and the purchase of supplies and related expenditures. The District's assets are aging and a facilities assessment has been conducted with district administration, maintenance staff, and a consulting architect. The District has committed to many projects including LED Lighting, Gymnasium bleachers, HVAC system, Fire Alarm Monitoring in 2 schools, Security Door Upgrades in 5 schools, Repainting the Track at 1 school, and Secondary Water filtering system for 1 school. \$153,710 of these projects were expended by year-end, leaving a commitment of \$367,317 out of the \$572,585 of awarded contracts. Fund balance amounts will go toward remodeling existing buildings and the purchase of newer additions.

### C. Non-Major Funds

The *Other Governmental Funds* category consists of the Student Activities Fund, the School Food Service Fund, and the Tax Increment Reporting Fund.

- The *Student Activities Fund* reflects monies spent at the school level for instruction. The ending fund balance of \$583,653 was an increase from prior year by \$128,645, or 28%. The large

fluctuation is a result of moving student funds from the Agency fund reported in FY19 to the Student Activity Fund in FY20. State guidance was changed to realize those funds as under school advisement. Revenues and expenditures both increased from FY19 to FY20.

- The *School Food Services Fund* has an ending fund balance of \$697,954. This amount includes \$171,816 in inventory. This is an increase in fund balance from the prior year of \$232,674, or 50%. With the mandated school shutdown caused by the COVID19 pandemic, breakfasts and lunches were delivered to a large portion of our students under the temporary free and reduced rates funded by the federal government. Federal revenues increased by \$416,989 from FY19 or 62%. Associated expenditures with food, salaries, and equipment also increased by \$354,096 or 36%.
- The *Tax Increment Reporting Fund* is a Special Revenue fund and functions as a flow-through for the taxes received and forwarded to Charter schools for the students that reside in our District's boundaries but attend a charter school.

## GENERAL FUND BUDGETARY ADJUSTMENTS AND HIGHLIGHTS

During the year, the Board revised the District's budget. Budget amendments were made to reflect changes in programs and related funding. The difference between the original budget and the final amended budget was an increase of \$1,879,127 in total general fund revenues. The most significant budgetary adjustments may be summarized as follows:

- When FY19 amounts were finalized and after the FY20 original budget was passed, carry-forward and deferred revenue balances for designated programs were added to the FY20 budget in the amount of \$928,683. This alone accounts for 49.4% of the increase in budgeted revenue as stated above. Other increases were spread out over other various local programs. On the expenditure side, this carry-forward and state funding was added primarily to budgets in the instructional services category.
- Actual expenditures were \$2,748,510 below the final amended budgeted amounts. The most significant positive variance was \$2,247,887 in instructional services. This is the result of an intentional effort by the District to conserve monies and is reflected in the deferred revenue and assigned fund balances.
- Actual revenues were \$1,380,750 below the final amended budgeted amount. Several factors account for the majority of this difference. First, the final budget includes use of fund balance of \$272,371. This fund balance revenue is used solely for budgeting purposes and accounts for 20% of the stated revenue difference. There is also a noticeable difference in budget to actual in the State revenues. This difference is the result of revenues being moved to deferred liabilities in the amount of \$756,136 that will be used at the start of the next fiscal year.

## CAPITAL ASSET AND DEBT ADMINISTRATION

### A. Capital Assets

The *Capital Projects Fund* is used to account for the costs incurred in acquiring and improving sites, constructing and remodeling facilities, and procuring equipment necessary for providing educational programs for all students within the District.

Capital assets at June 30, 2020 and 2019 are outlined below:

**Capital Assets  
(Net of Accumulated Depreciation)**

	Governmental activities	
	2020	2019
Land	\$ 678,405	\$ 678,405
Water Stock	201,945	201,945
Buildings and improvements	12,267,159	12,586,819
Furniture and equipment	976,290	941,291
Vehicles	1,268,664	1,124,851
Total capital assets, net of depreciation	<u>\$ 15,392,463</u>	<u>\$ 15,533,311</u>

Additional information on the District's capital assets can be found in Note 4 to the basic financial statements.

**B. Debt Administration**

As of June 30, 2010, the District's bonded indebtedness was eliminated with all bonds being retired. The general obligation bonded debt of the District is limited by State law to 4% of the fair market value of the total taxable property in the District. The legal limit at June 30, 2020 is \$83.31 million. Net general obligation debt at June 30, 2020 is \$0, thus not reducing the full debt-incurring capacity.

Additional information on the District's long-term debt can be found in Note 8 to the basic financial statements and in the statistical section of this report.

***MATTERS FOR FUTURE CONSIDERATION***

Replacing our retiring staff with highly qualified individuals is of ongoing importance. Our rural area draws those that like a quieter lifestyle with mountain and desert spaces. Providing a competitive salary schedule and increasing the beginning salary for teachers will be priorities. In addition, with our buildings averaging 45 years of age, major renovations or replacements will be needed for all schools in the near to long-term future. Equipping these schools with modern technologies and providing meaningful learning opportunities to our students is essential. We also are striving to provide safe, secure learning and employment spaces for our students and employees. With this goals, the District has proposed an Obligation Bond for voters in the November 2020 election to replace Emery High, Ferron Elementary, and classroom upgrades for Bookcliff Elementary.

***REQUESTS FOR INFORMATION***

This financial report is designed to provide a general overview of the District's finances. Questions concerning any of the information provided in this report or requests for information should be addressed to the Business Administrator, Emery County School District, PO Box 120, Huntington, UT 84528.

**EMERY COUNTY SCHOOL DISTRICT**  
**Reconciliation of the Balance Sheet of Governmental Funds**  
**to the Statement of Net Position**  
June 30, 2020

---

**Total fund balances for governmental funds** \$ 12,846,601

Total net position reported for governmental activities in the statement of net position is different because:

Capital assets used in governmental funds are not financial resources and therefore are not reported in the funds. Those assets consist of:

Land	\$ 678,405	
Water stock	201,945	
Buildings and improvements, net	12,267,159	
Furniture and equipment, net	976,290	
Vehicles, net	<u>1,268,664</u>	
		15,392,463

Deferred Outflows of resources, a consumption of net position that applies to future periods, is not shown in the fund statements. 1,989,351

Long-term liabilities that pertain to governmental funds are not due and payable in the current period and therefore are not reported as fund liabilities. All liabilities - both current and long-term - are reported in the statement of net position. Balances at year-end are:

Accrued sick leave	(569,959)	
Net pension liability	(8,242,531)	
Deferred Inflows of Resources Related to Pensions	(3,319,779)	
		<u>(12,132,269)</u>

**Total net position of governmental activities** \$ 18,096,146

The notes to the financial statements are an integral part of this statement.

**EMERY COUNTY SCHOOL DISTRICT**  
**Reconciliation of the Statement of Revenues, Expenditures, and Changes in**  
**Fund Balances of Governmental Funds to the Statement of Activities**  
Year Ended June 30, 2020

**Net change in fund balances-total governmental funds** \$ 1,603,856

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, assets with an initial, individual cost of more than \$5,000 are capitalized. The cost is allocated over the estimated useful life and reported as depreciation expense. This is the amount by which depreciation exceeded capital purchases in the current period.

Capital outlays	\$ 1,165,744	
Depreciation expense	<u>(1,297,753)</u>	(140,848)

In the Statement of Activities, certain operating expenses - compensated absences (sick leave), pension liability, termination benefits (early retirement) - are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). During this year, the following are those changes:

Accrued leave increase		(14,809)
Adjusted Pension expense at measurement date		(472,237)
Reverse prior year contributions and current contributions of pension liability		<u>67,085</u>

**Change in net position of governmental activities** **\$ 1,043,047**

The notes to the financial statements are an integral part of this statement.

EMERY COUNTY SCHOOL DISTRICT  
Notes to Basic Financial Statements  
Fiscal Year Ending June 30, 2020

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the Emery County School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the District are described below.

**A. Reporting Entity**

The Board of Education (Board), comprised of five elected individuals, is the governing authority for the District and comprises the primary and only educational government within Emery County. The District is not a component unit of any other primary government. The District may levy taxes, issue bonds, hire employees and is fiscally independent.

**B. Government-Wide Financial Statements**

The government-wide financial statements (i.e. the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the District. Governmental activities generally are financed through taxes, inter-governmental revenues, and other non-exchange transactions. The effect of inter-fund activity has been eliminated from the government-wide financial statements with the exception that inter-fund services provided and used are not eliminated in the process of consolidation.

The Statement of Activities presents a comparison between direct expenses and program revenues of each function of the District's governmental activities. Direct expenses are those that are clearly identifiable with a specific function. Depreciation expense for "shared" capital assets (for example, a school building is used primarily for instructional, school administration, operation and maintenance of facilities, and school lunch services) are ratably included in direct expenses of the appropriate functions.

Interest on general long-term liabilities is considered an indirect expense and is reported in the Statement of Activities as a separate line item. Program revenues include: 1) charges to students or others who purchase, use, or directly benefit from goods or services offered by a given function, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Revenues that are not classified as program revenues, including property taxes, are presented as general revenues.

**C. Fund Financial Statements**

The fund financial statements provide information about the District's funds. Separate statements for each fund category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as other governmental funds.

The District reports the following *major* governmental funds:

1. *General Fund* – the District’s primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
2. *Capital Projects Fund* – accounts for resources accumulated and payments made for the acquisition and improvement of sites; construction and remodel of facilities; and procurement of equipment necessary for providing educational programs for all students within the District.

The District reports the following *non-major* special revenue funds that receive revenues that are restricted to expenditures for specified purposes:

3. *Student Activities Fund* – accounts for revenue and expenses generated at the school level for all instructional activity.
4. *School Food Services Fund* – accounts for preparation and serving of school lunches and breakfasts.
5. *Tax Increment Fund* – used as a flow through for collection and forwarding taxes to charter schools.

#### D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The *Government-wide Financial Statements* are reported using the economic resources measurement focus and are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Non-exchange transactions, in which the District receives value without directly giving equal value in exchange, include property taxes. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which taxes are levied. Revenue from grants and similar items is recognized in the fiscal year in which all eligibility requirements imposed by the provider have been met.

*Governmental Fund Financial Statements* are reported using the current financial resources measurement focus and modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within thirty days after year-end. Property taxes and interest are considered to be susceptible to accrual.

All other revenue items are reported using the accrual basis of accounting. Expenditures generally are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, early retirement and post-employment healthcare benefits and compensated absences, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and capital lease acquisitions are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are

incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues. When both restricted and unrestricted resources are available, it is the District's procedure to use restricted resources first, then unrestricted resources, as they are needed.

### E. Budgetary Data

Annual budgets are adopted on a basis consistent with generally accepted accounting principles. All annual appropriations lapse at fiscal year-end. The following procedures are used in establishing the budgetary data reflected in the financial statements.

1. During June of each year, the District Superintendent submits to the Board a proposed operating budget for the next fiscal year, commencing July 1<sup>st</sup>. This budget includes proposed expenditures and the means of financing them. Also included is a final budget for the current fiscal year, ending June 30. Copies of the proposed budget are made available for public review by June 1.
2. If the District does not exceed the certified tax rate, a public hearing is held prior to June 30 at which the budget is legally adopted by resolution of the Board after obtaining taxpayer input. If the District exceeds the certified tax rate, the budget is adopted in August when data is available to set the rates.
3. Once adopted, the budget can be amended by subsequent Board action. The Board can approve reductions in appropriations; however, increases in appropriations by fund require a public hearing prior to amending the budget. In accordance with Utah state law, interim adjustments may be made by administrative transfer of money from one appropriation to another within any given fund.
4. Expenditures may not legally exceed budgeted amounts at the fund level.

Appropriations in budgeted funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is used as necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations and encumbrances lapse at year end, valid outstanding encumbrances are re-appropriated and become part of the subsequent year's budget per state regulations.

Negative variances in total revenues and the positive variances in total expenditures are largely a result of federal and state program revenues and related expenditures that do not have a direct impact on the fund balance. Budgets generally assume the expenditure of all available resources. Therefore, when the budget is prepared, it is assumed these funds will not have a carryover of revenue to a subsequent year. Program revenue received but not spent is deferred to the subsequent fiscal year. As a result, overall fund revenue variances will be negative, and overall fund expenditure variances will be positive.

### F. Deposits and Investments

The cash balances of substantially all funds are pooled and invested by the District for the purpose of increasing earnings through investment activities and providing efficient management of temporary

investments. The District’s investments are valued at fair value at year-end. The Utah Public Treasurers’ Investment Fund (PTIF) operates in accordance with appropriate Utah state laws. The fair value of the District’s position in the PTIF investment pool is the same as the value of the pool shares. Changes in the fair value of investments are recorded as investment earnings. Earnings on pooled funds are apportioned and paid or credited to funds based on the average balance of each participating fund.

**G. Cash and Cash Equivalents**

The District considers cash and cash equivalents to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition, including the PTIF.

**H. Receivables and Payables**

Activity between funds that are representative of lending/borrowing arrangements, and which are outstanding at year-end, are referred to as “due to/from other funds”.

**I. Inventories**

Inventories are valued at cost, or if donated, at fair value when received, using the first-in first-out (FIFO) method. Inventory in the governmental funds consists of expendable supplies held for consumption. The cost is recorded as an asset at the time individual inventory items are purchased, and expenditure when the assets are distributed and consumed. Commodities received from federal sources are consumable inventories intended to support the food service operations. Thus, federal commodities are treated as a current financial resource and are recorded as revenues when received in both the fund statements and government-wide statements.

**J. Capital Assets**

Capital assets, which include land, water stock, buildings and improvements, and furniture and equipment, are reported in the government-wide financial statements. The District defines capital assets as those listed above with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, works of art, and similar items received in a service concession arrangement, are reported at acquisition value rather than fair value. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset’s life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction is not capitalized. Land and construction in progress are not depreciated. Buildings and improvements, furniture, and equipment of the District are depreciated using the straight-line method over the following estimated lives:

<u>Assets</u>	<u>Years</u>
▪ Buildings	50
▪ Building improvements and portable classrooms	20

## Notes to Financial Statements

▪ Stage / Auditorium Equipment	20
▪ Computer Equipment	5
▪ Standard Furniture and Equipment	15
▪ Vehicles and Buses	10
▪ Educational Media	7

### K. Compensated Absences

Compensated absences and voluntary termination benefits are typically paid for by resources from the District's general fund. However, it is the District's policy to use resources from other funds, when those other funds directly funded the employees' related positions, to pay for these costs.

Under terms of association agreements, twelve-month or full year employees earn vacation and sick leave in amounts varying with tenure and classification. Up to 180 days of unused sick leave is reimbursed upon retirement at the rate of 50% of the licensed substitute pay rate per day. To qualify, the employee must have met the minimum retirement requirements set by Utah Retirement Systems (URS), as well as have 15 years of consecutive URS qualifying service with the District. Vacation leave can accrue to a maximum of 30 days while the employee is still employed with the District. There is not a payout for vacation days at retirement.

All sick leave pay plus related payroll taxes is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured—for example, as a result of employee resignations and retirements.

### L. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are paid out of debt proceeds and are reported as expenditures.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

### M. Fund Balance Classifications

The GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definition*, provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

## Notes to Financial Statements

- *Nonspendable fund balance* – amounts that are not in spendable form (such as inventory) or are required to be maintained intact.
- *Restricted fund balance* – amounts constrained to specific purposes by their providers (such as grantors, bondholders and higher levels of government), through constitutional provisions or by legislation.
- *Committed fund balance* – amounts constrained to specific purposes established by formal action (resolution) of the Board. Once reported as committed, amounts cannot be used for any other purpose unless the Board takes action through approval of a formal motion to remove or change the constraint. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

As allowed in Utah law (Utah Code 53A-19-103) the District can commit up to 5% of General Fund budgeted expenditures for economic stabilization. Potential state budget cuts, disasters, immediate capital needs, and other significant events are circumstances or conditions that signal the need for stabilization. Additionally, the commitment is necessary to maintain liquidity. As defined by State law, this commitment is not to be used in the negotiation or settlement of contract salaries for school district employees. At June 30, 2020, \$1,000,000 was reported as committed to economic stabilization. This amount has been established through formal School Board action. Any additional amount or authorization for spending said funds would be authorized through similar actions.

- *Assigned fund balance* – amounts the District intends to use for a specific purpose. Under District policy DA, funds can be assigned by the Board, Superintendent and/or Business Administrator.
- *Unassigned fund balance* – amounts that are available for any purpose. Positive amounts are reported only in the General Fund. All other funds are restricted by the nature of the fund.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources. Of the unrestricted resources, committed resources will be used first, followed by assigned resources then unassigned resources.

### N. Use of Estimates

Presenting financial statements in conformity with generally accepted accounting principles (GAAP) requires management to make certain estimates concerning assets, liabilities, revenues, and expenses.

### O. Deferred Outflows / Inflows of Resources

In addition to assets, financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense / expenditure) until then. In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and as such, will not be recognized as an inflow of resources (revenue) until that time.

**P. Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Utah Retirement Systems Pension Plan (URS) and additions to/deductions from URS’s fiduciary net position have been determined on the same basis as they are reported by URS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**Q. Date of Subsequent Event Evaluation**

Emery County School District’s subsequent events have been evaluated through the day of the financial statement issuance of October 15, 2020.

**2. DEPOSITS AND INVESTMENTS**

Deposits and investments are carried at fair value. A reconciliation of cash and investments at June 30, 2020, as shown on the financial statements is as follows:

Carrying amount of deposits	\$ 1,458,512
Carrying amount of investments	<u>14,080,584</u>
Total cash and investments	<u>\$ 15,539,096</u>
Governmental funds cash and investments	<u>\$ 15,539,096</u>
Total cash and investments	<u>\$ 15,539,096</u>

The District complies with the State Money Management Act (*Utah Code*, Section 51, Chapter 7) (Act) and related Rules of the Money Management Council (Council) in handling its depository and investing transactions. District funds are deposited in qualified depositories as defined by the Act. The Act also authorizes the District to invest in the Utah Public Treasurer’s Investment Fund, certificates of deposit, US Treasury obligations, US agency issues, high-grade commercial paper, banker’s acceptances, repurchase agreements, corporate bonds, money market mutual funds, and obligations of governmental entities within the State of Utah.

The Act and Council rules govern the financial reporting requirements of qualified depositories in which public funds may be deposited and prescribe the conditions under which the designation of a depository shall remain in effect. The District considers the actions of the Council to be necessary and sufficient for adequate protection of its uninsured bank deposits.

**A. Deposits**

At June 30, 2020, the District’s carrying amount of deposits is \$1,458,512 and the bank balance is \$1,923,992. Of the bank balance, \$447,479 is covered by federal depository insurance and \$1,476,513 is uninsured and uncollateralized. No deposits are collateralized nor are they required to be by State statute.

## Notes to Financial Statements

- *Custodial credit risk* for deposits is the risk that in the event of a bank failure, the District's deposits may not be recovered. The District does not have a formal deposit policy for custodial credit risk.

### B. Investments

At June 30, 2020, the District has investments in the PTIF. The PTIF is an external local government investment pool managed by the Utah State Treasurer. The PTIF is authorized and makes investments in accordance with the Act. The Council provides regulatory oversight for the PTIF. Participant accounts with the PTIF are not insured or otherwise guaranteed by the State of Utah. Participants in the PTIF share proportionally in the income, costs, gains and losses from investment activities. The degree of risk of the PTIF depends upon the underlying portfolio, which primarily consists of money market securities held by the Utah State Treasurer, including investment-grade corporate notes (77.74%), money market mutual funds (16.02%), and U.S. Treasury Bills (6.24%). The portfolio has a weighted average maturity of 39.84 days. The PTIF is not rated. The fair value of the District's position in the PTIF investment pool is the District's pool balance multiplied by the pool's fair value per share factor, which for June 30, 2020 was 1.00244845.

The District also holds investments with banks, a credit union, and in corporate bonds, government bonds, and CD's through a broker. The District measures and records its investments at amortized cost, which approximates fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Quoted prices for identical investments in active markets;
- Level 2: Observable inputs other than quoted market prices; and,
- Level 3: Unobservable inputs

At June 30, 2020, the District had the following recurring fair value measurements:

<b>Emery County School District</b>		Fair Value Measurements Using		
Investment Type	30-Jun-20	Level 1	Level 2	Level 3
Utah PTIF	\$ 9,644,484	\$ -	\$ 9,644,484	\$ -
Money Market	\$ 134,362	\$ -	\$ 134,362	\$ -
Certificates of Deposit	\$ 732,890	\$ 719,327	\$ 13,563	\$ -
Corporate Bonds	\$ 3,568,848	\$ 3,568,848	\$ -	\$ -
Total Investments	<u>\$ 14,080,584</u>	<u>\$ 4,288,175</u>	<u>\$ 9,792,409</u>	<u>\$ -</u>

Debt and equity securities classified in Level 1 are valued using prices quoted in active markets for those securities. Debt and equity securities classified in Level 2 are valued using the following approaches:

- Utah Public Treasurer's Investment Fund: application of the June 30, 2020 fair value factor, as calculated by the Utah State Treasurer, to the District's average daily balance in the Fund
- Money Market Funds: actual balances as of June 30, 2020
- Certificates of Deposit: actual balances as of June 30, 2020

## Notes to Financial Statements

- *Interest rate risk* is the risk that changes in interest rates will adversely affect the fair value of an investment. The District manages its exposure to interest rate risk by complying with the Act, which requires that the remaining term to maturity of investments does not exceed the period of availability of the funds to be invested. The Act further limits the remaining term to maturity on all investments in commercial paper and bankers' acceptances to 270 days or less and fixed-income securities to 365 days or less. In addition, variable-rate securities may not have a remaining term to final maturity over two years. The District has no investment policy that would further limit its interest rate risk.

At June 30, 2020, the District has the following investments, summarized by type:

<b>Emery County School District</b>		Investment Maturities (In Years)	
Investment Type	Fair Value	Less than 1	1 to 5
Utah PTIF	\$ 9,644,484	\$ 9,644,484	\$ -
Money Market	\$ 134,362	\$ 134,362	\$ -
Certificates of Deposit	\$ 732,890	\$ 13,563	\$ 719,327
Corporate Bonds	\$ 3,568,848	\$ 834,449	\$ 2,734,399
Total Investments	\$ 14,080,584	\$ 10,626,858	\$ 3,453,726

- *Credit risk* is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. The District's policy for limiting the credit risk of investments is to comply with the Act and related rules. The Act and related rules limit investments in commercial paper to a first tier rating and investments in fixed-income and variable-rate securities to a rating of A or higher as rated by Moody's Investors Service, Inc. or by Standard and Poor's Corporation at the time of purchase. The District has no investment policy that would further limit its investment choices. As of June 30, 2020, the District has the following investments subject to credit risk:

<b>Emery County School District</b>		Credit Quality Ratings (As of June 30, 2020)		
Investment Type	Fair Value	A or Higher	Less than A	Unrated
Utah PTIF	\$ 9,644,484	\$ -	\$ -	\$ 9,644,484
Money Market	\$ 134,362	\$ -	\$ -	\$ 134,362
Certificates of Deposit	\$ 732,890	\$ 479,845	\$ -	\$ 253,045
Corporate Bonds	\$ 3,568,848	\$ 3,335,826	\$ 233,022	\$ -
Total Investments	\$ 14,080,584	\$ 3,815,671	\$ 233,022	\$ 10,031,891

- *Concentration of credit risk* is the risk of loss attributed to the amount of a government's investment in a single issuer. The District's policy for managing this risk is to comply with the Act. The Act limits investments in commercial paper and or corporate obligations to 5% of the District's total portfolio with a single issuer. The District places no other limits on the amount it may invest in any one issuer.
- *Custodial credit risk* for investments is the risk that, in the event of the failure of the counterparty, a government will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The District's policy for managing this risk is to comply with the Act and related rules. The District places no other limit on the amount of investments to be held by counterparties.

**3. PROPERTY TAXES**

Property taxes are accounted for on a modified-accrual basis, with appropriate recognition of property taxes receivable at year-end. The District has recorded a corresponding property tax deferral for taxes assessed January 1 but not due and collectible within thirty days of the end of the fiscal year.

The property tax revenue of the District is collected and distributed by the Emery County treasurer as an agent of the District. Utah statutes establish the process by which taxes are levied and collected. The county assessor is required to assess a lien on real property as of January 1 and complete the tax rolls by May 15. The District's Board of Education is required to adopt its initial budget for the next fiscal year by June 30; this initial budget adoption establishes tax levy rates to provide resources to fund District operations for the next fiscal year beginning July 1.

By July 21, the County auditor is to mail assessed value and tax notices to property owners. A taxpayer may then petition the County Board of Equalization between August 1 and August 15 for a revision of the assessed value. The County auditor makes approved changes in assessed value by November 1 and on this same date the County auditor is to deliver the completed assessment rolls to the county treasurer. Tax notices are mailed with a due date of November 30.

Motor vehicles are subject to an "age-based" fee that is due each time a vehicle is registered. The age-based fee is for passenger type vehicles and ranges from \$10 to \$150 based on the age of the vehicle. The revenues collected in each County from motor vehicle fees are distributed by the County to each taxing entity in which the property is located in the same proportion in which revenue collected from ad valorem real property tax is distributed. The District recognizes motor vehicle fees as property tax revenue when collected.

As of June 30, 2020, property taxes receivable by the District includes uncollected taxes assessed as of January 1, 2020 or earlier. It is expected that all assessed taxes (including delinquencies plus accrued interest and penalties) will be collected within a five-year period, after which time the County treasurer may force sale of property to collect the delinquent portion.

The property taxes receivable and deferred inflows of resources accounts at June 30, 2020 are summarized as follows:

## Notes to Financial Statements

	General	Capital Projects	Tax Reporting	Totals
Property Taxes - Receivable				
Levied for current and prior years	\$ 67,604	\$ 4,814	\$ -	\$ 72,418
Levied for future years	11,630,181	988,765	50,990	12,669,936
Total	<u>\$ 11,697,785</u>	<u>\$ 993,579</u>		<u>\$ 12,742,354</u>
Property Taxes - Deferred Inflow				
Levied for future year and uncollected	\$ 11,630,181	\$ 988,765	\$ 50,990	\$ 12,669,936

#### 4. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2020 was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
<b>Governmental activities:</b>				
Capital assets, not being depreciated				
Land	\$ 678,405	\$ -	\$ -	\$ 678,405
Water stock	201,945	-	-	201,945
Total capital assets, not being depreciated	880,350	-	-	880,350
Capital assets, being depreciated:				
Buildings and improvements	51,537,785	539,078	-	52,076,863

Vehicles	4,452,192	409,893	(33,294)	4,828,791
Total capital assets, being depreciated	59,347,364	1,165,744	(99,640)	60,413,468
Accumulated depreciation for:				
Buildings and improvements	(38,950,966)	(858,738)	-	(39,809,704)
Furniture and equipment	(2,416,096)	(172,935)	57,507	(2,531,524)
Vehicles	(3,327,341)	(266,080)	33,294	(3,560,127)
Total accumulated depreciation	(44,694,403)	(1,297,753)	90,801	(45,901,355)
Total capital assets, being depreciated, net	14,652,961	(132,009)	(8,839)	14,512,113
Governmental activities capital assets, net	<u>\$ 15,533,311</u>	<u>\$ (132,009)</u>	<u>\$ (8,839)</u>	<u>\$ 15,392,463</u>

Depreciation expense for year ended June 30, 2020, was charged to functions of the District as follows:

<b>Governmental activities:</b>	
Instructional services	\$ 726,742
Supporting services:	
District administration	116,798
School administration	103,820
Business	25,955
Operation and maintenance of facilities	207,640
Transportation	51,910
School lunch services	64,888
Total depreciation expense, governmental activities	<u>\$ 1,297,753</u>

## Notes to Financial Statements

The District is obligated at June 30, 2020, under construction commitments as follows:

Project	Location	Vendor	Contract	Paid by June 30th	Costs to Complete
LED Lighting	Cleveland Elementary	Flash Co Electric	\$ 2,720	\$ 2,720	\$ -
LED Lighting	Canyon View Middle School	Bodec	25,519	21,680	3,839
New Bleachers	Canyon View Middle School	HUFCOR	75,258	-	75,258
New Bleachers	San Rafael Middle School	HUFCOR	75,258	-	75,258
New Bleachers	Green River High	HUFCOR	59,510	-	59,510
HVAC GYM	Cleveland Elementary	C&C Mechanical, INC	29,471	-	29,471

			<b>\$ 572,585</b>	<b>\$ 153,710</b>	<b>\$ 367,317</b>

## 5. RETIREMENT PLANS

### A. General Information about the Pension Plan

Plan description: Eligible plan participants are provided with pensions through the Utah Retirement Systems. The Utah Retirement Systems are comprised of the following Pension Trust Funds:

- Public Employees Noncontributory Retirement System (Noncontributory System);
- Public Employees Contributory Retirement System (Contributory System); are multiple employer, cost sharing, public employees, retirement systems.
- Tier 2 Public Employees Contributory Retirement System (Tier 2 Public Employees System); is a multiple employer, cost sharing, public employees, retirement system.

The Tier 2 Public Employees System became effective July 1, 2011. All eligible employees beginning on or after July 1, 2011, who have no previous service credit with any of the Utah Retirement Systems, are members of the Tier 2 Retirement System.

The Utah Retirement Systems (Systems) are established and governed by the respective sections of Title 49 of the Utah Code Annotated 1953, as amended. The Systems' defined benefit plans are amended statutorily by the Utah State Legislature. The Utah State Retirement Office Act in Title 49 provides for the administration of the Systems under the direction of the Utah State Retirement Board, whose members are appointed by the Governor. The Systems are fiduciary funds defined as pension (and other employee benefit) trust funds. URS is a component unit of the State of Utah. Title 49 grants authority to establish and amend the benefit terms.

URS issues a publicly available financial report that can be obtained by writing Utah Retirement Systems, 560 E 200 S, Salt Lake City, Utah 84102 or visiting the website: [www.urs.org/general/publications](http://www.urs.org/general/publications).

## Notes to Financial Statements

Summary of Benefits by System Benefits provided: URS provides retirement, disability, and death benefits.

Retirement benefits are as follows:

System	Final Average Salary	Years of Service Required and/or Age Eligible for Benefits	Benefit Percent per Year of Service	COLA**
Noncontributory	Highest 3 years	30 years any age 25 years any age* 20 years age 60* 10 years age 62* 4 years age 65	2% per year all years	Up to 4%
Contributory	Highest 5 years	30 years any age 25 years any age* 20 years age 60* 10 years age 62* 4 years age 65	1.25% per year to June 1975; 2.00% per year July 1975 to present	Up to 4%
Tier 2 Public Employees System	Highest 5 years	35 years any age 20 years age 60* 10 years age 62* 4 years age 65	1.5% per year all years	Up to 2.5%

\*Actuarial reductions are applied.

\*\*All post-retirement cost-of-living adjustments are non-compounding and are based on the original benefit. The cost-of-living adjustments are also limited to the actual Consumer Price Index (CPI) increase for the year, although unused CPI increases not met may be carried forward to subsequent years.

Contribution Rate Summary: As a condition of participation in the Systems, employers and/or employees are required to contribute certain percentages of salary and wages as authorized by statute and specified by the URS Board. Contributions are actuarially determined as an amount that, when combined with employee contributions (where applicable) is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded actuarial accrued liability. Contribution rates as of June 30, 2019 are as follows:

	Employee Paid	Employer Contribution Rates	Employer rate for 401(k) Plan
<b>Contributory System</b>			
12 - State & School Division Tier 1	6.00%	17.700%	N/A
112 - State & School Division Tier 2	N/A	18.990%	1.03%
<b>Noncontributory System</b>			
16 - State & School Division Tier 1	N/A	22.190%	1.50%
<b>Tier 2 DC Only</b>			
212 - State and School	N/A	10.020%	10.00%

Tier 2 rates include a statutory required contribution to finance the unfunded actuarial accrued liability of the Tier 1 plans.

For the fiscal year ended June 30, 2020, employer and employee contributions to the System were as follows: Information is presented as combined, and then separated into funds.

## Notes to Financial Statements

System	Employer Contributions	Employee Contributions
Noncontributory System	\$ 2,146,190	N/A
Contributory System	\$ 14,650	4,966
Tier 2 Public Employees System	\$ 507,994	-
Tier 2 DC Only System	\$ 16,437	N/A
<b>Total Contributions</b>	<b>\$ 2,685,271</b>	<b>\$ 4,966</b>

Contributions reported are the URS Board approved required contributions by the System. Contributions in the Tier 2 Systems are used to finance the unfunded liabilities in the Tier 1 Systems.

### Combined Pension Assets, Liabilities, Expense, and Deferred Outflows and Inflows of Resources Related to Pensions

At June 30, 2020, we reported a net pension asset of \$0 and a net pension liability of \$8,242,531.

(Measurement Date): December 31, 2019

	Net Pension Asset	Net Pension Liability	Proportionate Share	Proportionate Share December 31, 2018	Change (Decrease)
Noncontributory System	\$ -	\$ 8,155,425	0.3670801%	0.3572352%	0.0098449%
Contributory System	\$ -	48,488	0.7023372%	0.3741780%	0.3281592%
Tier 2 Public Employees System	\$ -	38,618	0.1717053%	0.1691091%	0.0025962%
<b>Total Net Pension Asset/Liability</b>	<b>\$ -</b>	<b>\$ 8,242,531</b>			

The net pension asset and liability was measured as of December 31, 2019, and the total pension liability used to calculate the net pension asset and liability was determined by an actuarial valuation as of January 1, 2019 and rolled-forward using generally accepted actuarial procedures. The proportion of the net pension asset and liability is equal to the ratio of the employer's actual contributions to the Systems during the plan year over the total of all employer contributions to the System during the plan year.

For the year ended June 30, 2020, the District recognized pension expense of \$3,090,217.

At June 30, 2020, we reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 137,590	\$ 63,285
Changes in Assumptions	489,229	1,110
Net difference between projected and actual earnings on pension plan investments	-	2,747,742
Changes in proportion and differences between contributions	28,899	507,642
Contributions subsequent to the measurement date	1,333,633	-
<b>Total</b>	<b>\$ 1,989,351</b>	<b>\$ 3,319,779</b>

## Notes to Financial Statements

\$1,333,633 reported as deferred outflows of resources related to pensions results from contributions made by us prior to our fiscal year end, but subsequent to the measurement date of December 31, 2019. These contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ended December 31,</u>	<u>Deferred Outflows (Inflows) of Resources</u>
2020	\$ (712,006)
2021	\$ (901,961)
2022	\$ (36,778)
2023	\$ (1,039,576)
2024	\$ 3,892
Thereafter	\$ 22,369

Noncontributory System Pension Expenses, and Deferred Outflows and Inflows of Resources: For the year ended June 30, 2020, the District recognized pension expense of \$2,795,647. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources relating to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 126,787	\$ 50,031
Changes in Assumptions	472,739	-
Net difference between projected and actual earnings on pension plan investments	-	2,524,875
Changes in proportion and differences between contributions	-	507,642
Contributions subsequent to the measurement date	1,057,861	-
<b>Total</b>	<u>\$ 1,657,387</u>	<u>\$ 3,082,548</u>

\$1,057,861 reported as deferred outflows of resources related to pensions results from contributions made by the District prior to the fiscal year end, but subsequent to the measurement date of December 31, 2019. These contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions, will be recognized in pension expense as follows:

<u>Year Ended December 31,</u>	<u>Deferred Outflows (Inflows) of Resources</u>
2020	\$ (643,418)
2021	\$ (843,918)
2022	\$ (29,817)
2023	\$ (965,870)
2024	\$ -
Thereafter	\$ -

Contributory System Pension Expense, and Deferred Outflows and Inflows of Resources: For the year ended June 30, 2020, the District recognized pension expense of \$77,461. At June 30, 2020, the District reported

## Notes to Financial Statements

deferred outflows of resources and deferred inflows of resources relating to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ -	\$ -
Changes in Assumptions	-	-
Net difference between projected and actual earnings on pension plan investments	-	193,182
Changes in proportion and differences between contributions	-	-
Contributions subsequent to the measurement date	8,092	-
<b>Total</b>	<b>\$ 8,092</b>	<b>\$ 193,182</b>

\$8,092 reported as deferred outflows of resources related to pensions results from contributions made by the District prior to the fiscal year end, but subsequent to the measurement date of December 31, 2019.

These contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions, will be recognized in pension expense as follows:

<u>Year Ended December 31,</u>	<u>Deferred Outflows (Inflows) of Resources</u>
2020	\$ (64,468)
2021	\$ (54,501)
2022	\$ (8,491)
2023	\$ (65,722)
2024	\$ -
Thereafter	\$ -

Tier 2 Public Employees System Pension Expenses, and Deferred Outflows and Inflows of Resources: For the year ended June 30, 2020, the District recognized pension expense of \$217,109. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources relating to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 10,803	\$ 13,254
Changes in Assumptions	16,490	1,110
Net difference between projected and actual earnings on pension plan investments	-	29,685
Changes in proportion and differences between contributions	28,899	-
Contributions subsequent to the measurement date	267,680	-
<b>Total</b>	<b>\$ 323,872</b>	<b>\$ 44,049</b>

\$267,680 reported as deferred outflows of resources related to pensions results from contributions made by the District prior to the fiscal year end, but subsequent to the measurement date of December 31, 2019.

These contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions, will be recognized in pension expense as follows:

## Notes to Financial Statements

Year Ended December 31,	Deferred Outflows (Inflows) of Resources
2020	\$ (4,120)
2021	\$ (3,542)
2022	\$ 1,530
2023	\$ (7,984)
2024	\$ 3,892
Thereafter	\$ 22,369

**Actuarial assumptions:** The total pension liability in the December 31, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50 Percent
Salary Increases	3.25 - 9.75 Percent, Average, including Inflation
Investment Rate of Return	6.95 Percent, net of pension plan investment expense, including inflation

Mortality rates were developed from actual experience and mortality tables, based on gender, occupation and age, as appropriate, with adjustments for future improvement in mortality based on Scale AA, a model developed by the Society of Actuaries. The actuarial assumptions used in the January 1, 2019 valuation were based on the results of an actuarial experience study for the five-year period ending December 31, 2016.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class and is applied consistently to each defined benefit pension plan. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Expected Return Arithmetic Basis		
	Target Asset Allocation	Real Return Arithmetic Basis	Long-Term Expected Portfolio Real Rate of Return
Equity Securities	40%	6.15%	2.46%
Debt Securities	20%	0.40%	0.08%
Real Assets	15%	5.75%	0.86%
Private Equity	9%	9.95%	0.89%
Absolute Return	16%	2.85%	0.46%
Cash & Cash Equivalents	0%	0.00%	0.00%
<b>Totals</b>	<b>100%</b>		<b>4.75%</b>
		Inflation	2.50%
		Expected Arithmetic Nominal Return	7.25%

The 6.95% assumed investment rate of return is comprised of an inflation rate of 2.5% and a real return of 4.45% that is net of investment expense.

## Notes to Financial Statements

*Discount rate:* The discount rate used to measure the total pension liability was 6.95 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from all participating employers will be made at contractually required rates that are actuarially determined and certified by the URS Board. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate does not use the Municipal Bond Index Rate. The discount rate remained the same at 6.95 percent from the prior measurement period.

*Sensitivity of the proportionate share of the net pension asset and liability to changes in the discount rate:* The following presents the proportionate share of the net pension liability calculated using the discount rate of 6.95 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.95 percent) or 1-percentage-point higher (7.95 percent) than the current rate:

System	1% Decrease (5.95%)	Discount Rate (6.95%)	1% Increase (7.95%)
Noncontributory System	\$ 18,397,692	\$ 8,155,425	\$ (430,184)
Contributory System	\$ 472,275	\$ 48,488	\$ (314,828)
Tier 2 Public Employees System	\$ 333,018	\$ 38,618	\$ (188,900)
Total	\$ 19,202,985	\$ 8,242,531	\$ (933,912)

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued URS financial report.

### Defined Contribution Savings Plans

The Defined Contribution Savings Plans are administered by the Utah Retirement Systems Board and are generally supplemental plans to the basic retirement benefits of the Retirement Systems, but may also be used as a primary retirement plan. These plans are voluntary tax-advantaged retirement savings programs authorized under sections 401(k), 457(b) and 408 of the Internal Revenue code. Detailed information regarding plan provisions is available in the separately issued URS financial report.

Emery School District participates in the following Defined Contribution Savings Plans with Utah Retirement Systems:

- 401(k) Plan
- 457 (b) Plan
- Roth IRA Plan
- Traditional IRA Plan

Employee and employer contributions to the Utah Retirement Defined Contribution Savings Plans for fiscal year ended June 30<sup>th</sup> were as follows:

## Notes to Financial Statements

	2020	2019	2018

## 6. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and injuries and disasters. The District has joined with other public entities in a common risk management and insurance program operated by the State of Utah Division of Risk Management (the Fund). The District maintains insurance coverage for general, automobile, personal injury, errors and omissions, and malpractice liability through Fund policies. The District also insures its buildings, including those under construction, and contents against all insurable risks of direct physical loss or damage with the Fund.

The District pays premiums to this risk pool for its general insurance coverage. The pool is self sustaining through member premiums and reinsured through commercial companies for claims in excess of specified amounts for certain types of risks. The District is subject to a minimal deductible for claims of the risk pool. Property physical damage is insured to replacement value with a \$1,000 deductible; automobile physical damage is insured to actual value with a \$750 deductible. Other liability is limited to the lesser of \$10 million or the statutory limit.

The District provides benefitted employees \$50,000 in term life insurance, \$10,000 for dependent life insurance, in addition to voluntary long-term disability coverage, that is also maintained on a premium basis. The District provides a death benefit equal to one month of salary, maintained on a self-insured basis.

The District has joined the Utah School Board Risk Management Mutual Insurance Association which is a risk pool for Workers' Compensation. The District has purchased commercial insurance for other risks of loss including employee health and accident insurance. Unemployment compensation is handled on a cost of benefits reimbursement basis with the State of Utah. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the last three fiscal years.

**7. LONG-TERM LIABILITIES**

**A. Changes in Long-term Obligations**

Long-term liability activity for the year ended June 30, 2020 is as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
<b>Governmental activities:</b>					
Accrued Sick Leave	555,150	39,237	(24,428)	569,959	56,996
Total governmental activity long-term liabilities	<u>555,150</u>	<u>\$ 39,237</u>	<u>\$ (24,428)</u>	<u>\$ 569,959</u>	<u>\$ 56,996</u>

Accrued sick leave payable represents a potential liability and is paid to an employee’s Longevity plan (either 401(k) or medical trust account) in a lump sum when the liability becomes due at retirement. This liability is liquidated using current revenues from the fund in which the employee worked, typically the General Fund.

**B. General Obligation Bonds**

Payments on previous general obligation bonds were made by the debt service fund from property taxes. As of June 30, 2010, all bond obligations had been paid in full. The District continues to be free of bond obligations as of June 30, 2020. Currently, the District’s legal debt limit, calculated at 4% of the assessed property values in Emery County, is \$83.31 million.

**8. RESTRICTED POSITION AND FUND BALANCES**

Non-General funds are restricted based upon the revenue source, as indicated in GASB Statement 54. The Government-Wide Statement of Net Position reports these same restricted balances of \$697,954 for the School Food Service Fund and \$3,448,726 for the Capital Outlay Fund. When expenditures can be used from multiple fund balance classifications, it is the policy of the District to use restricted funds first, if available, to comply with the funding source’s time restrictions. This is followed by committed, assigned, and then unassigned available funds.

If the expenditure is for the purchase of furniture, fixtures, or other property (except books) or for the construction or repair of schools, and exceeds \$10,000, the School Board will commit resources from the fund that fits the purpose of the expenditure. If funds are received from a source that does not restrict its use, the District may assign those funds for specific purposes, especially considering the on-going status of the funds. They are kept separate from unassigned funds, but do not require the board’s authority. The committed funds of \$1,367,317 and assigned funds of \$834,084 are shown on the fund financial statements.

Assigned funds of \$250,431 in the General Fund are carryover amounts for school-level supply and equipment budgets managed at the District level. Assigned funds of \$583,653 in the Student Activities Fund are carryover amounts for school-level budgets managed at the School level.

**9. ENCUMBRANCES**

At year end the amount of encumbrances expected to be honored upon performance by the vendor in the next year are as follows:

Capital projects fund	<u>\$ 367,317</u>
Total	<u>\$ 367,317</u>

**10. COVID-19**

During the fiscal year ending June 30, 2020, the world economy was significantly affected by the global pandemic of COVID-19. The future economic and financial impact of this pandemic is currently unknown.

**EMERY COUNTY SCHOOL DISTRICT**  
**Notes to Required Supplementary Information**

---

**Changes in Assumptions: Utah Retirement Systems**

As a result of the passage of Utah SB129, the retirement rates for members in the Tier 2 Public Safety and Firefighter Hybrid System have been modified to be the same as the assumption used to model the retirement system in the Tier I Public Safety and Firefighter Systems, except for a 10% load at first eligibility for unreduced retirement prior to age 65. All other assumptions are the same as in the previous year.

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

---

*This section of the District's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.*

---

	<u>Page</u>
<b>Financial Trends:</b> These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.	72-83
<b>Revenue Capacity:</b> These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.	84-89
<b>Debt Capacity:</b> These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	90-94
<b>Demographic and Economic Information:</b> These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	95-97
<b>Operating Information:</b> These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	98-113

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive Annual financial reports for the relevant year.

*Nonspendable* includes inventories that are not expected to be converted to cash.

*Restricted* includes net fund resources of the District that are subject to external constraints due to State or Federal laws or externally imposed conditions by grantors or creditors.

*Committed* balances reflect a District-imposed limitation on the use of otherwise available expendable financial resources in government funds.

*Assigned* balances in the general fund and other governmental funds are those that do not meet the requirements of restricted or committed but that are intended to be used for specific purposes.

*Unassigned* balances in the general fund are all other available net fund resources.

\*\* In FY 2013, due to changes in the Utah Property Tax law, taxes previously receipted into the Non K-12 Fund are now receipted into General Fund. Consequently, \$680,855 of fund balance in the Non K-12 Fund was transferred to the General Fund. The result is a lower fund balance in the 2013 Restricted "All Other Governmental Funds" and a higher amount in the 2013 Unassigned "General Fund" amount.

*Limitations per Utah State Statute:*

- (1) Rate Established Annually by the Utah State Legislature and the Utah State Tax Commission
- (2) Maximum Rate is 0.002000
- (3) Maximum Rate is 0.002500
- (4) Sufficient to Recover Property Taxes Repaid on Approved Tax Appeals
- (5) Maximum Rate is 0.003000
- (6) No Maximum Rate, Must Have Voter Approval for General Obligation Bonds Issued
- (7) Sufficient to generate the calculated amount needed for local students attending charter schools

\* School District tax rates were consolidated by Utah law for the 2012 tax year. The K-3 Reading, Transportation, Tort Liability, Recreation, and 10% of Basic levies were rolled into the Board Local Levy.

The tax rates shown on this table represent the tax rates that are effective for each entity on the date the taxes are due to the County, which is Nov. 30 of each year

				Total Direct and Overlapping General Obligation Debt	<u>\$ 7,501,296</u>

**Notes:**

The State's general obligation debt is not included in overlapping debt because the State currently levies no property tax for payment of general obligation bonds.

Taxable Value used in this table excludes the taxable value used to determine uniform fees on tangible personal property.

Overlapping governments are those that coincide, at least in part, with geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the property taxpayers of the District. The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable assessed value that is within the District's boundaries and dividing it by each unit's total taxable assessed value. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the property taxpayers should be taken into account.

Footnote 1: Any credits earned prior to completion of initial teacher licensure requirements do not qualify to be used for lane advancement.

Footnote 2: Legislative Educator Salary Adjustments are \$2,500 for 2007-08 and \$1,700 for 2008-09 per qualifying FTE, for a total amount of \$4,200. This amount has been added onto each step/lane of the regular schedule. To qualify, an employee must: 1) be licensed, 2) be hired into a qualifying position, and 3) have received a satisfactory or above rating in his/her most recent evaluation. Qualifying positions are: classroom teacher, speech pathologist, librarian or media specialist (licensed positions only), preschool teacher, mentor teacher, teacher specialist, teacher leader, guidance counselor, audiologist, psychologist, or social worker, as defined in 53F-2-405.

Footnote 3: Pursuant to Utah Code 53F-2-504, qualifying teachers may have an amount added to their base salary through the teacher salary supplement program. The exact amount is determined by program requirements and is not included on this salary schedule. The base salary of qualifying teachers will be calculated on an individual basis.

Footnote 4: Each step and lane includes an amount of between \$1940 and \$2340 that is funded by a voted leeway passed locally in the 1980's.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND  
ON COMPLIANCE AND OTHER MATTERS BASED ON AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS**

Board of Education  
Emery County School District  
Huntington, UT

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Emery County School District, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Emery County School District's basic financial statements, and have issued our report thereon dated October 15, 2020.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Emery County School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Emery County School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Emery County School District's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Emery County School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR’S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM  
 AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY  
 THE UNIFORM GUIDANCE**

Board of Education  
 Emery County School District  
 Huntington, Utah

**Report on Compliance for Each Major Federal Program**

We have audited Emery County School District’s compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Emery County School District’s major federal programs for the year ended June 30, 2020. Emery County School District’s major federal programs are identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

**Management’s Responsibility**

Management is responsible for compliance with the federal statutes, regulations, and terms and conditions of its federal awards applicable to its federal programs.

**Auditor’s Responsibility**

Our responsibility is to express an opinion on compliance for each of Emery County School District’s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Emery County School District’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Emery County School District’s compliance.

### **Opinion on Each Major Federal Program**

In our opinion, Emery County School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

### **Other Matters**

The results our auditing procedures disclosed no instance of noncompliance which are required to be reported in accordance with Uniform Guidance.

### **Report on Internal Control over Compliance**

Management of Emery County School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Emery County School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Emery County School District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

### **Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Emery County School District, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Emery County School District's basic financial statements. We issued our report thereon dated October 15, 2020, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

**EMERY COUNTY SCHOOL DISTRICT**  
**SCHEDULE OF FINDINGS AND QUESTIONED COSTS**  
**FOR THE YEAR ENDED JUNE 30, 2020**

**A. SUMMARY OF AUDITOR'S RESULTS**

1. The auditor's report expresses an unmodified opinion on whether the financial statements of Emery County School District were prepared in accordance with GAAP.
2. No significant deficiencies in internal control were disclosed during the audit of the financial statements. No material weaknesses are reported.
3. No instances of noncompliance material to the financial statements of Emery County School District, which would be required to be reported in accordance with *Government Auditing Standards*, were disclosed during the audit.
4. No significant deficiencies in internal control over major federal award programs were disclosed during the audit. No material weaknesses are reported.
5. The auditor's report on compliance for the major Federal award programs for Emery County School District expresses an unmodified opinion on all major federal programs.
6. Audit findings that are required to be reported in accordance with 2 CFR section 200.516(a) are reported in this schedule.
7. The programs tested as a major program were: Child Nutrition Cluster: School Breakfast Program CFDA 10.553 and School Lunch Program CFDA 10.555.
8. The threshold for distinguishing between Type A and B programs was \$750,000.
9. Emery County School District was determined to be a low-risk auditee.

The accompanying notes are an integral part of this schedule

**EMERY COUNTY SCHOOL DISTRICT**  
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
FOR THE YEAR ENDED JUNE 30, 2020

**NOTE A – BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (the schedule) includes the Federal grant activity of Emery County School District under programs of the Federal government for the year ended June 30, 2020. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR), *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Because the schedule presents only a selected portion of operations of Emery County School District, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Emery County School District.

**NOTE B - SIGNIFICANT ACCOUNTING POLICIES**

The accompanying Schedule of Expenditures of Federal Awards is a summary of activities related to the District expenditure of Federal awards. The schedule has been prepared on the same basis (modified accrual) as the basic financial statements. Most of the awards are reimbursement based. Therefore, as expenditures of Federal funds are made, revenue is recognized. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Emery County School District does not use the 10% de minimis cost rate as allowed under Uniform Guidance.

**NOTE D - FOOD DISTRIBUTION**

Non-monetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed. School Districts participating in the USDA Food Distribution Program during the 2019-2020 year were sent a monthly report by the state detailing market value of USDA goods received for the month. Noncash federal awards are based on these reports and estimates.

**NOTE E - ACCOUNTS RECEIVABLE**

The financial statements include accounts receivable from Federal programs. These receivables are recorded according to the same basis as the financial statements. The receivables reflect Federal awards that have been expended by yearend and not yet reimbursed.

**EMERY COUNTY SCHOOL DISTRICT  
SCHEDULE OF PRIOR AUDIT FINDINGS  
FOR THE YEAR ENDED JUNE 30, 2020**

There were no prior audit findings

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND  
 REPORT ON INTERNAL CONTROL OVER COMPLIANCE  
 AS REQUIRED BY THE STATE COMPLIANCE AUDIT GUIDE**

Board of Education  
 Emery County School District  
 Huntington, Utah

**Report On Compliance**

We have audited Emery County School District's compliance with the applicable state compliance requirements described in the *State Compliance Audit Guide*, issued by the Office of the Utah State Auditor that could have a direct and material effect on Emery County School District for the year ended June 30, 2020.

State compliance requirements were tested for the year ended June 30, 2020 in the following areas:

- Budgetary Compliance
- Fund Balance
- Cash Management
- Fraud Risk Assessment
- School District Tax Levies
- Open & Public Meetings Act
- Treasurer's Bond
- Minimum School Program

**Management's Responsibility**

Management is responsible for compliance with the state requirements referred to above.

**Auditor's Responsibility**

Our responsibility is to express an opinion on Emery County School District's compliance based on our audit of the compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the *State Compliance Audit Guide*. Those standards and the *State Compliance Audit Guide* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a direct and material effect on Emery County School District occurred. An audit includes examining, on a test basis, evidence about Emery County School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each state compliance requirement referred to above. However, our audit does not provide a legal determination of Emery County School District's compliance with those requirements.

### ***Opinion on Compliance***

In our opinion, Emery County School District complied, in all material respects, with the state compliance requirements referred to above that could have a direct and material effect on Emery County School District for the year ended June 30, 2020.

### ***Other Matters***

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the *State Compliance Audit Guide* and which are in our letter to management dated October 15, 2020 as item 2020-1. Our opinion on compliance is not modified with respect to these matters.

### **Report On Internal Control Over Compliance**

Management of Emery County School District is responsible for establishing and maintaining effective internal control over compliance with the state compliance requirements referred to above. In planning and performing our audit of compliance, we considered Emery County School District's internal control over compliance with the compliance requirements referred to above to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance with state compliance requirements and to test and report on internal control over compliance in accordance with the *State Compliance Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Emery County School District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a state compliance requirement on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a state compliance requirement will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a state compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control and compliance and the results of that testing based on the requirements of the *State Compliance Audit Guide*. Accordingly, this report is not suitable for any other purpose.
